Another addition to the STIHL KombiSystem

The NEW FBD-KM bed redefiner KombiSystem tool will add perfection to your gardens.

The STIHL FBD-KM Bed Redefiner tool is the latest addition to the KombiSystem family. It is ideal for users who want to achieve the perfect manicured finish. It significantly reduces the time and effort required to redefine bed edges.

Its professional open guard design minimizes clogging caused by dirt and debris. With a solid driveshaft and a skid plate to protect the gearbox, the STIHL FBD-KM is a strong, durable piece of equipment. Combine that with the precision control of an adjustable depth wheel and a line of sight indicator, and there's a powerful and efficient landscaping tool that's an affordable alternative to a dedicated bed redefiner.

The STIHL FBD-KM is recommended for use with the KM 130 R, but can be used with the KM 90 R and KM 110 R.

About STIHL LIMITED

STIHL LIMITED, headquartered in London, ON, is a subsidiary of ANDREAS STIHL AG & Co. KG. STIHL is the number one selling brand of handheld outdoor power equipment in Canada. STIHL manufactures a full line of powerful, lightweight and versatile handheld outdoor power equipment for homeowners and professional users. STIHL products are only sold through servicing power equipment dealers from coast to coast – not mass merchants. For more information or for the name of the closest STIHL Dealer visit the STIHL web site at www.stihl.ca.
